

Nova ICT

Digital Infrastructure for Institutions

Empowering Innovation Through Digital Infrastructure

Knowledge economies rely on secure, high-performance digital infrastructure.

We provide

1

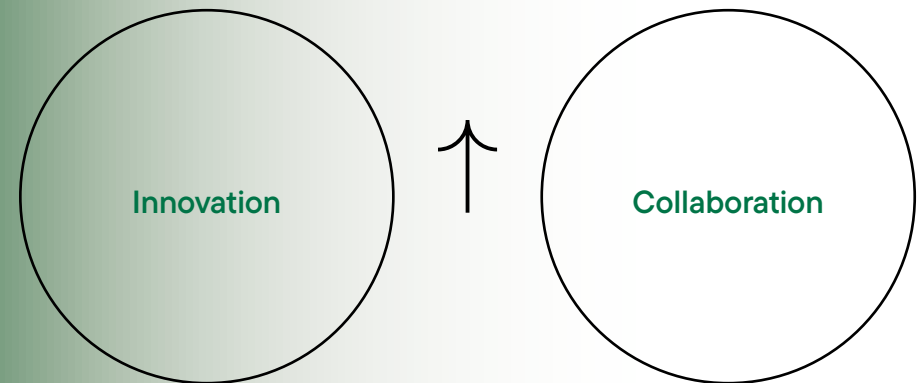

Advanced
connectivity

2

Computing

3

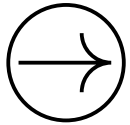

Data-Management
solutions

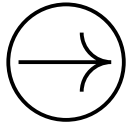

From research networks to university ICT modernization, we design and deliver systems that empower education and innovation at national and international scale.

Nova ICT supports universities, research centers, **and** innovation ecosystems

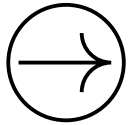

What we deliver

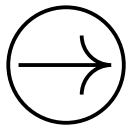

ICT modernization for universities and research institutions

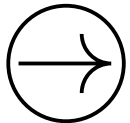

Cloud, HPC, and data-center infrastructure for research networks

Secure interconnection between hospitals, labs, and academic partners

Digital learning and administration systems for higher education

Alignment with EU research-funding and interoperability standards

How we deliver

End-to-end integration across education and research ecosystems

High-availability design for mission-critical academic workloads

Security and compliance with GDPR, research ethics, and data-sovereignty regulations

Sustainable infrastructure aligned with EU Green ICT principles

Certified quality: ISO 9001, 14000, 20000, 22301, 27001, 27701, 45001, 41001, 37001

Selected Projects

1

Hospitals – GRNET Interconnection Project

CLIENT

GRNET / Ministry of Health

SCOPE

High-speed data and research network linking hospitals and universities for secure information exchange and cloud collaboration.

3

EDYTE – National Academy of Digital Skills

CLIENT

GRNET / Ministry of Digital Governance

SCOPE

Nationwide platform enabling continuous upskilling, accessible through the research and education network.

2

University of Piraeus ICT Infrastructure Upgrade

CLIENT

University of Piraeus

SCOPE

Comprehensive modernization of digital systems, connectivity, and data security infrastructure.

4

Open Data & Cloud Platform for Research (GRNET)

CLIENT

Greek Research and Technology Network

SCOPE

Cloud infrastructure enabling universities and labs to store, share, and analyze large datasets under EU FAIR data principles.

Let's build
the future
together!

NOVA\ICT

For governments, institutions &
organizations navigating critical
digital transformation, Nova ICT
brings Structure into Complexity.
