

Nova ICT

Digitization & Document Management

The Digital Backbone of Public Administration

Across public administration the need for secure, transparent, and efficient digital workflows has never been greater.

We design and deliver large-scale digitization and records-management platforms that bring

Clarity

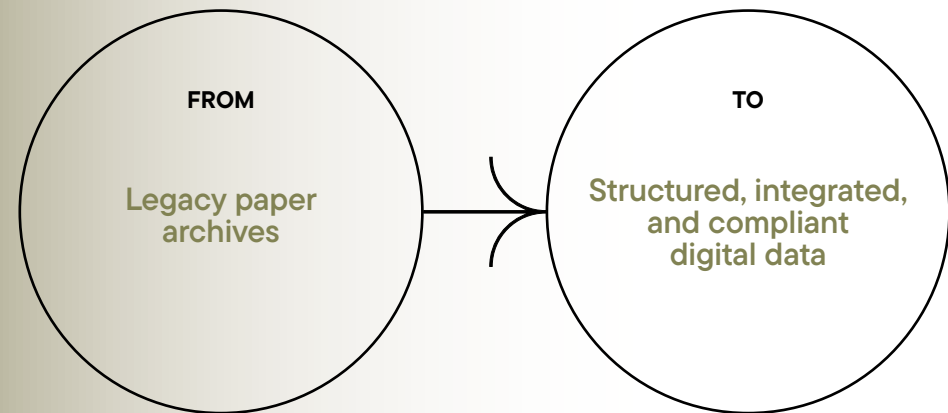

Security

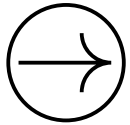

Accessibility

to vast public archives and institutional processes.

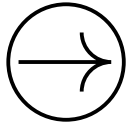

NOVA ICT supports from court systems and penitentiaries to land registries and administrative agencies.

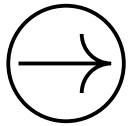

What we deliver

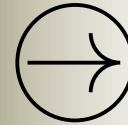

End-to-end digitization and document-management **solutions**

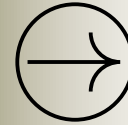

Secure cloud platforms for justice and government archives

Metadata governance and **AI-assisted** classification

Workflow automation for legal and administrative services

Compliance with EU and national data-protection standards

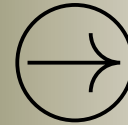

How we deliver

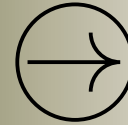

Turnkey digitization including logistics, scanning, metadata, and quality control

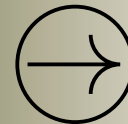

Certified chain of custody ensuring integrity of sensitive documents

Funding compliance under EU and national frameworks

Certified assurance: ISO 9001, 14000, 20000, 22301, 27001, 27701, 45001, 41001, 37001

Advanced information systems with full auditability and role-based access

1

National Courts & Justice Archive Digitization

CLIENT

Ministry of Justice

SCOPE

Comprehensive digitization of records across Supreme Court, Prosecutor's Office, and regional courts — ensuring fast, secure access for judicial authorities.

2

Urban Planning Archive Digitization – Phase I & II

CLIENT

Technical Chamber of Greece (TEE)

SCOPE

Conversion and cataloguing of urban planning archives into a centralized, searchable digital platform.

3

National Archives of Greece (GAK) – Digital Transformation

CLIENT

Ministry of Education & Religious Affairs

SCOPE

Digitization and development of a national document-management system for historic and administrative collections.

4

Asylum Files Digitization – Multi-Phase Program

CLIENT

Ministry of Migration & Asylum

SCOPE

Secure digitization and AI-assisted indexing of asylum case files, improving accessibility and process transparency.

5

Secure Storage & Archival Management for Public Institutions

CLIENT

Information Society S.A.

SCOPE

Nationwide framework ensuring long-term preservation and controlled access to public records.

6

Digitization of Loan Files (sub-project of TPD Digital Transformation)

CLIENT

Information Society S.A.

SCOPE

EDMS rollout, loan file scanning & metadata capture, data extraction for electronic workflows.

7

Hellenic Cadastre – Digitization of Mortgage & Land Registry Archives

CLIENT

Hellenic Cadastre

SCOPE

Mass digitization across 390 registry offices and development of a national search platform (Lot 2: Crete & Attica).

8

Digitization of Public Health System Archives

CLIENT

Information Society S.A.

SCOPE

Nationwide medical-records digitization with secure archival workflows.

Let's build
the future
together!

NOVA\ICT

For governments, institutions &
organizations navigating critical
digital transformation, Nova ICT
brings Structure into Complexity.
