

Nova ICT

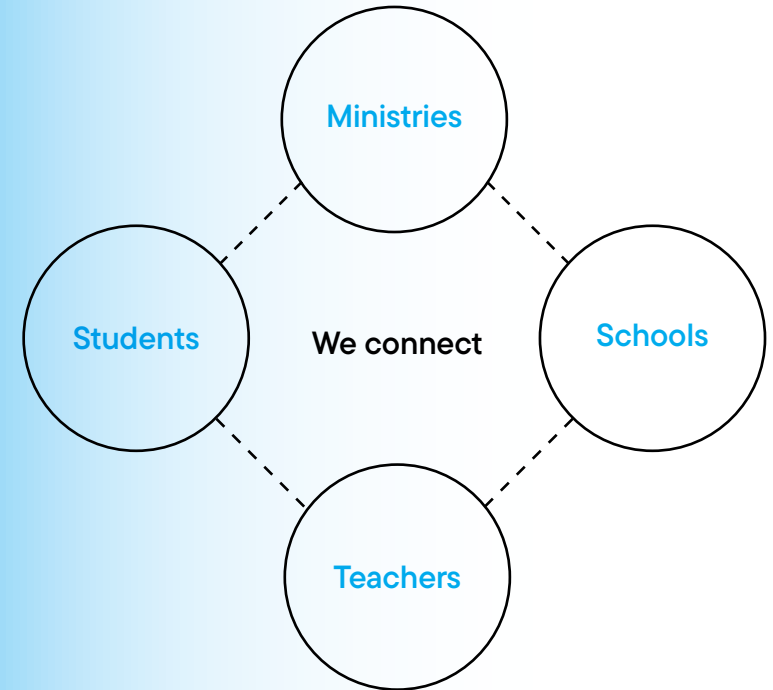

Education & Digital Skills

Powering the Future of Digital Education

Education systems worldwide are being redefined by technology. Nova ICT supports this transformation by building national platforms, networks and digital ecosystems.

We deliver infrastructure and software that enables

Lifelong learning

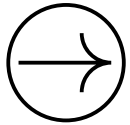

Digital literacy

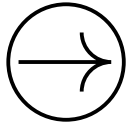

Equal access

We ensure that education remains resilient, inclusive and future-ready.

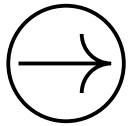

What we deliver

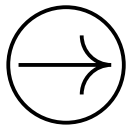

Nationwide education **management** and **e-learning systems**

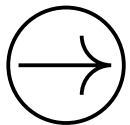

Classroom **technology integration** and STEM infrastructure

Teacher training and digital content platforms

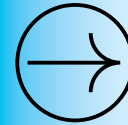

Cybersecurity and **data protection** for educational institutions

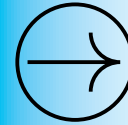

Lifecycle management, from system design to operation and support

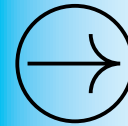

How we deliver

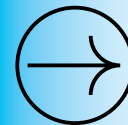

Holistic integration across ministries, education authorities, and institutions

Proven expertise in managing EU-funded and national-scale education programs

Long-term support with continuous upgrades and interoperability maintenance

Future-ready design enabling AI-assisted learning and analytics

Secure and compliant systems under ISO 9001, 14000, 20000, 22301, 27001, 27701, 45001, 41001, 37001

Selected Projects

1

e-Schools – National Digital Education Platform

CLIENT

Ministry of Education
& Religious Affairs

SCOPE

Centralized education platform connecting 14,000+ schools, supporting administration, e-learning, and performance monitoring.

2

Robotics & STEM Labs Initiative

CLIENT

Ministry of Education

SCOPE

Nationwide deployment of modern labs to promote STEM education and hands-on learning.

3

Interactive Learning Systems (Lot 3)

CLIENT

Information Society
S.A.

SCOPE

Procurement and rollout of interactive classroom systems across public schools.

4

TEE Training Material & Digital App

CLIENT

Ministry of Education

SCOPE

Development of large-scale digital training content and applications for technical and vocational education.

5

EDYTE – National Academy of Digital Skills

CLIENT

GRNET / Ministry of
Digital Governance

SCOPE

Platform enabling continuous upskilling and reskilling of the workforce across public and private sectors.

6

National & Public Libraries Digital Information System

CLIENT

Ministry of Culture /
Ministry of Education

SCOPE

Modernization of libraries with digital catalogues, access platforms, and metadata interoperability.

Let's build
the future
together!

NOVA\ICT

For governments, institutions &
organizations navigating critical
digital transformation, Nova ICT
brings Structure into Complexity.
