

Nova ICT

National Defense & Strategic Systems

Delivering complex technology projects.

National defense and security increasingly rely on integrated digital systems that enable real-time awareness, coordination, and response.

We design and deliver sovereign, mission-critical platforms that strengthen

Operational
readiness

Strategic
agencies

Decision-
making

Communications
across defense
forces

We utilize

C2/C4ISR
systems

Cyber
resilience

Tactical
networks

AI-enabled
intelligence

We integrate cutting-edge technologies into unified architectures that protect national interests under the most demanding conditions.

What we deliver

C2/C4ISR platforms and **decision support**

Tactical communications and **secure networks**

EW-ready architectures and **spectrum awareness**

Defense AI applications and sovereign data pipelines

Multi-vendor orchestration, lifecycle support, certification

How we deliver

End-to-end program delivery under **strict confidentiality and accreditation frameworks**

Integration of multi-vendor, classified, and **sovereign systems across domains**

PMO **excellence ensuring on-schedule, compliant, and secure execution**

Security-by-design architecture aligned with NATO, National and EU defense standards

Certified quality: ISO 9001, 14000, 20000, 22301, 27001, 27701, 45001, 41001, 37001,

TH2ORAX – Evolutionary Holistic Hybrid Operational Autonomous System

CLIENT

Ministry of
Development /
Ministry of National
Defence

SCOPE

National program enhancing
operational readiness
via integrated situational
awareness, secure
communications, and AI
assisted decision making.

Let's build
the future
together!

NOVA\ICT

For governments, institutions &
organizations navigating critical
digital transformation, Nova ICT
brings Structure into Complexity.
